Announcing the eighth annual Cayuga Arts Collective Spring Show at the Trumansburg Conservatory of Fine Arts. We invite established and emerging artists to take part in celebrating the creative spirit that fills our community. This year the theme is water. In addition to all types of waterways - streams, rivers, oceans, waterfalls etc. - consider also flow, waves, tides, coastal habitats, sea life, faucets and fountains, sailing and swimming, drips and drops as possible sources of inspiration. Other keywords: flow; splash; ripple; flood; rain; rush/surge. As always, we expect and welcome broad interpretations of the theme.

The impetus for the show came from an interest in raising awareness on protecting and conserving our vital waterways both locally and globally. Tie-in events will include a gallery talk with experts from the field of water conservation as well as water-based art workshops including one on cyanotypes, a camera-less photography technique that involves laying objects on coated paper, exposing to UV light, and washing with water to create white and blue images.

This exhibit is open only to CayAC members and every member is guaranteed at least one spot. For the duration of the exhibit, we will run a "People's Choice Award". A ballot box will be located at the door. The winners will be announced at the closing party on Friday, July 26th. First prize is \$100.
